

Opening of new U.K office

Due to the consistent growing importance of the UK market in the Oil & Gas business, we are delighted to expand our business to a new location. Hereby, we announce the opening of our district office in International Avenue, Dyce, Aberdeen, Scotland. Which enables us to respond effectively to the needs of our varied customers willing to implement our technology providing digital automated POB Management control. For further information or counselling please contact our local VP Sales David Gordon.
